**Questions/Responses No. 1 to the
Request for Proposals (RFP) K16-0056-70
Acoustical Wall Panels Installation- Glen Burnie**

Ladies and Gentlemen:

The following questions for the above referenced RFP were received by e-mail and are answered and posted for all prospective Offerors. The statements and interpretations contained in the following responses to questions are not binding on the Maryland Judiciary unless the RFP is expressly amended. Nothing in the Maryland Judiciary's response to these questions is to be construed as agreement to or acceptance by the Maryland Judiciary of any statement or interpretation on the part of the Offeror asking the question.

1. Question: Prior to the site visit, can we get some clarification as to the product you are looking for? The requirement per line 2.4.3 states Wood Veneer Wall Panels, yet the details under 2.4.3.1 are fabric covered panels with a fiberglass core and 2" thickness. There seems to be a mix of specification for the two products.
[Response: Wood Veneer is listed in error. We are requesting Acoustical Sound panels with fabric finish. Please see Amendment #1.](#)
2. Question: The only Audition panels we could find are by Acoustigreen and they are not a specified manufacturer.
[Response: There are quite a few manufacturers that provide the required specifications.](#)
3. Question: Also the acceptable manufacturers being the only four listed does limit our ability to provide a good, strong proposal. Is it possible to have you expand the manufacturers to include AVL Systems? With AVL, who we represent, can provide wood finish or cloth finished products.
[Response: As long as the product provided meets the specifications, any manufacturer may be offered. Please see Amendment #1.](#)
