This Addendum is being issued to amend and clarify certain information contained in the above named RFP. All information contained herein is binding on all Offerors who respond to this RFP. Specific parts of the RFP have been amended. The following changes/additions are listed below; new language has been underlined and language deleted has been marked with a ~~strikeout~~ (ex. ~~language deleted~~).

Modify Section : 2.1.1, 2.4.2, 2.5.1, 2.5.2, 2.5.5 & Parts List

2.1 Purpose & Summary

~~2.1.1 The AOC is issuing this Request for Proposals (RFP) to select one Contractor, licensed to provide all labor, materials, supplies, tools, equipment, transportation, special equipment, and supervision required in performing installation, preventive maintenance and/or repair to the Access Control Management System, to include all alarms and the Camera/DVR System/NVR and I.P. Megapixel camera system.~~

2.1.1 The AOC is issuing this Request for Proposals (RFP) to select one Contractor, licensed to provide all labor, materials, supplies, tools, equipment, transportation, special equipment, and supervision required in performing installation, preventive maintenance and/or repair to a Camera/DVR System/NVR and I.P. Megapixel camera system, Access Control Management System excluding the virtual server for the Access Control System, all programming, updating and the addition of devices to the Access Control Virtual Server., to include the programming of all alarms and Camera/DVR System/NVR and I.P. Megapixel camera system to the Access Control System.

~~2.4.2 The contractor must document prior experience with the PELCO DX 8100 and the installation of cameras and programming of alarms~~

2.4.2 The contractor must document prior experience being be able to install troubleshoot, and install Card readers, interface modules and experience on installing access control hardware.

2.5 Contractor's Responsibility – Statement of Work

~~2.5.1 The Contractor must provide all labor, materials, supplies, tools, equipment, transportation, special equipment, and supervision required in performing preventive maintenance, installation and/or repair to the Access Control Management System and the CCTV system. The AOC reserves the right to purchase parts from other suppliers, when deemed to be in the best interest of the Judiciary.~~

2.5.1 The Contractor must provide all labor, materials, supplies, tools, equipment, transportation, special equipment, and supervision required in performing preventive maintenance, installation and/or repair to the CCTV system, Access Control Management infrastructure, excluding the virtual server for the Access Control System and all

programming, updating and programming of devices to the Access Control Virtual server. The AOC reserves the right to purchase parts from other suppliers, when deemed to be in the best interest of the Judiciary. The AOC may replace the current access control system, Schlage SMS in renewals of this contract. The contractor must also provide all tools for the removal of the existing camera system. Reasonable care must be provided in the removal of the existing system.

~~2.5.2 The Contractor must furnish and install all parts for preventive maintenance, minor repair, emergency repairs and general/routine requests for service. The Contractor is responsible for the provision of replacement parts from the original manufacturers or substitute parts approved by the original manufacturers, unless otherwise directed by the AOC CM.~~

2.5.2 The Contractor must furnish and install all parts for preventive maintenance, minor repair, emergency repairs and general/routine requests for service. The Contractor is responsible for the provision of replacement parts from the original manufacturers or substitute parts approved by the original manufacturers, unless otherwise directed by the AOC CM. This excludes the virtual server for the Access Control System, all programming additions and updating.

~~2.5.5 The Contractor must complete all installations/modifications/replacements in a neat, professional, and timely manner to the satisfaction of the AOC CM. The Contractor must securely affix all connections and equipment. The Contractor must repair any damage incurred during any installation, modification, and/or replacement to the satisfaction of the AOC CM. Contractors may subcontract portions of the work, however, all programming software and hardware set up and installation and final connections shall be made by the primary contractor. The contractor will perform testing on any work, that was directed in the scope of work and must be functioning properly before being presented to the CM for approval.~~

2.5.5 The Contractor must complete all installations/modifications/replacements in a neat, professional, and timely manner to the satisfaction of the AOC CM. The Contractor must securely affix all connections and equipment. The Contractor must repair any damage incurred during any installation, modification, and/or replacement to the satisfaction of the AOC CM. Contractors may subcontract portions of the work, however, all programming software and hardware set up and installation and final connections shall be coordinated through AOC CM. A separate vendor/contractor is maintaining the current Access Control System virtual server. The contractor will perform testing in conjunction with the vendor/contractor that is maintaining the virtual server on any work that was directed in the scope of work and must be functioning properly before being presented to the CM for approval.
